Speaking Engagements

"It was a pleasure working with Lisa to engage our employees during a companywide lunch and learn event on mentoring. Lisa is a dynamic speaker and her talking points on Creating a Mentoring Culture really spoke to many of our employees, both mentees and mentors who work to develop our employees both personally and professionally. Lisa provided us with great resources for laying the foundation for our new pilot mentoring program we kicked off this year. Our mentees really felt empowered to work smarter on their goals in collaboration with their mentor. Overall, Lisa's session was a very positive experience and attracted some new faces to our Women's Employee Resource Group."

"I could not be happier with the partnership I had with the Center for Mentorship Excellence! We were able to craft a custom program to help build internal mobility for our underrepresented groups. The impact of our mentorship program could be felt throughout the organization. And, Lisa is a master speaker and presenter. We were able to launch a speaker series that built buy-in and awareness across the organization. Thank you, Center for Mentorship Excellence, for your leadership and partnership."

"Lisa's presentation was extremely insightful and she brought very valuable references during the Q&A. The audience has been very satisfied with the session, and I highly recommend reaching out to Center for Mentoring Excellence for workshops and speaking engagements on Mentoring."
